RADIO ROCK-IT RDS

RADIO ROCK-IT IS SMART RADIO WITH FM DIGITAL DATA DECODING AND PATENTED SRS 3-D SOUND AUDIO ENHANCEMENT CAPABILITIES TO CREATE THE ULTIMATE STEREO SYSTEM FOR YOUR PC!

FM STEREO RECEIVER

Radio Rock-It RDS is a high fidelity FM Stereo Receiver which utilizes the latest in FM receiver digital tuning technology and specially tuned bandpass filters for low noise, crisp clear high quality audio output.

RBDS "SMART RADIO" DECODER

Radio Rock-It is also an RBDS (Radio Broadcast Data Systems) decoder. Now FM Stations can transmit digital data along with Stereo Audio. Radio Rock-It can receive and decode this digital information to display Station Call letters (i.e. KTWV), station program format such as Rock, Country, Jazz, etc. and other information such as weather reports, traffic reports, **song title and artists' name**, receive special messages via "Radio Text". You can even scan for your favorite station by program type (Classic Rock, Talk, Classical).

AUDIO ENHANCEMENT

Radio Rock-It can enhance your existing Multimedia Sound System as well. Hear your Audio CD's like never before. Process the sound through the patented SRS (Sound Retrieval System) 3D Stereo Surround Sound processor and tweak the audio to your personal delight with our 5-band graphic equalizer.

RADIO ON DEMAND*

Play your favorite radio program when you want to listen, even if you're not around when they broadcast it. With Radio Rock-It's **audio capture** capability, you can listen to your favorite music, drama, talk show or news even if your schedule and the radio station's programs don't match. You're in command with Radio on Demand!

AUDIO ENHANCEMENT

- 5 Band Graphical Equalizer
- Equalizer Presents: Talk, Jazz and Rock Settings
- On Screen VU Meter
- Patented SRS 3-D **Stereo** Sound Enhancement Technology
- Audio Processor Line Input for MIDE or CD Audio Music to Loop through Audio Processor. Sound enhancement for existing sound cards.
- CD Audio Deck to play your favorite audio CD's with SRS 3-D **Stereo** Sound

INPUTS\OUTPUTS
